

A

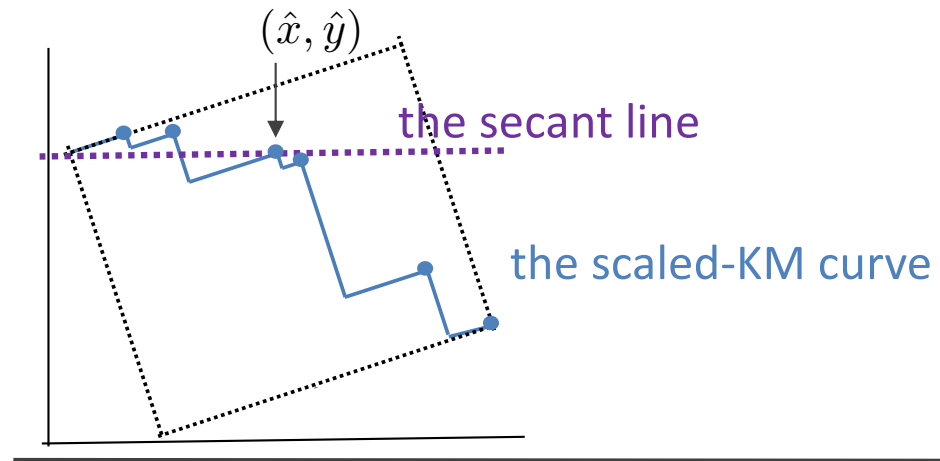

B

C

[condition a]

The difference between the scaled curve and its secant line on the points $(0, 1)$ and (\hat{x}, \hat{y}) does not vary in the interval of $x \in (0, \hat{x})$.

[condition b]

The scaled curve is in the region of above diagonal line in the interval of $(0, 1)$ and (\hat{x}, \hat{y}) .
